Arlindo Jaya

COMPANY PROFILE

Building Facilities.
Supporting Industries.
Delivering Complete Solutions.

Integrated Construction, Industrial Solutions & General Supply Partner

01 ABOUT ARLINDO

One Partner.
Complete Industrial Solutions.

PT Arlindo Jaya Construction is an Indonesia-based construction and industrial solution company specializing in building construction, industrial facility support, and general supply.

Through integrated services, Arlindo connects construction execution, industrial installation, equipment support, and supply requirements into one coordinated solution.

VISION

To be Indonesia's most trusted integrated partner for industrial and commercial facilities - recognised for engineering discipline, dependable delivery, and long-term client relationships.

MISSION

01 Deliver construction and industrial projects safely, on schedule, and to specification.

02 Integrate design, construction, installation, and supply under one accountable team.

03 Build a reliable supply network that keeps our clients' facilities running.

04 Develop people, processes, and partnerships that raise the standard of Indonesian industry.
